Transportation to the Grand Hyatt DFW

The Dallas/Fort Worth Airport provides complimentary transportation to the Grand Hyatt DFW via Skylink and Terminal Link. Both services connect all terminals with the hotel. Depending on which side of the terminal the guest is on (secured or unsecured) will dictate which mode of transportation to use.

Skylink

DFW's new high-speed airport train is now open. Skylink unites existing Terminals A, B, C and E, and extends to the new International Terminal D. Skylink's average wait time is 2 minutes and average passenger ride time is 5 minutes. There are two spacious Skylink stations in each terminal, located at the north and south ends of the terminals. The stations feature passenger information systems, and escalators and elevators for easy access to the station platforms.

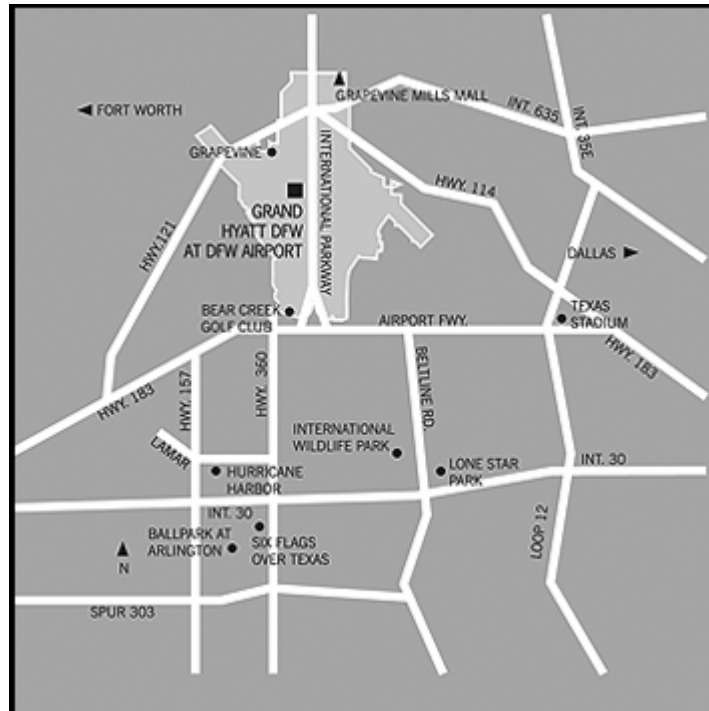

If a guest travels with carry-on luggage only and does not need to claim any checked baggage, they can remain on the secured side of the terminal and proceed to the nearest Skylink station to board the train. Once the guest arrives at Terminal D, they will leave Skylink and the secured side of the terminal and proceed to the escalators/elevators that will carry them into the Grand Hyatt DFW reception area.

Terminal Link

DFW's new Terminal Link service is a speedy, shuttle van service that takes guests directly from one terminal to another and to the Grand Hyatt DFW after they exit the secured side of the Airport. If a guest needs to claim their checked baggage, they will need to leave the secured side of the terminal, claim their baggage and proceed to the nearest Terminal Link stop to board the shuttle.

Once they board Terminal Link, it will take them directly to the Grand Hyatt DFW, saving the guest valuable time. To ensure the quickest transportation to their terminal, guests should board the van that displays the destination "Terminal D/Grand Hyatt DFW" on the LED signs on the front and side of the van. Terminal Link will operate on the arrivals level at its designated stops except for inbound Grand Hyatt DFW guests who will be dropped off in front of the hotel entrance, departure level. Outbound guests needing Terminal Link service to other terminals will need to go down to the arrivals level.

Pick-up/drop-off areas are conveniently located outside the bag claim areas in each of DFW's five terminals on the upper-level (arrivals level) by the roadway curb. There are two locations per terminal. Terminal Link vans run continuously between 6 a.m. and 10 p.m., and guests will wait only 5 to 7 minutes for the next van! Reduced/on-call service is available between 10 p.m. and 6 a.m. by calling 972 574 LINK (5465).
